DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 6 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Envall 5,582,313.

Envall teaches a container of roof box type comprising a container tub and lid portion 1-4, a first mount (elements 28 and 29 on container section 3), a second mount (elements 28 and 29 on container section 4), the first mount has two gripping portions near each side and are adjustable at multiple locations (see figure 2), and each of the mounts are removable for movement between engaged and disengaged positions.

Allowable Subject Matter

3. Claims 10-26 are allowed.

4. Claim 7 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments with respect to claims 6 and 9 have been considered but are moot in view of the new ground(s) of rejection.
